Serial No.: 10/781,294

## **Claims Listing**

The following listing of the claims replaces all previous versions of the claims.

1. (Currently Amended) An isolated nucleic acid molecule encoding a PAD6 polypeptide, comprising:

- (a) a nucleic acid molecule encoding a polypeptide comprising the amino acid sequence set forth as SEQ ID NO:24; or
- (b) a nucleic acid molecule that hybridizes to the nucleic acid molecule of (a) under highly stringent conditions, where the nucleic acid molecule encodes a biologically active PAAD domain-containing polypeptide wherein the nucleic acid of (a) or (b) encodes a PAAD domain-containing polypeptide having NFκB activation inhibiting activity.
- 2. (Previously Presented) The nucleic acid molecule of claim 1, comprising a nucleotide sequence set forth as SEQ ID NO:23.
  - 3. (Original) A vector containing the nucleic acid molecule of claim 1.
- 4. (Original) A recombinant cell containing the nucleic acid molecule of claim 1.

Claims 5 to 49 (Cancelled).
